EXAMINER'S AMENDMENT

1. In the *drawings:*

2. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

- Claims 32-59 are allowed.
- 4. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses or suggests a method of conditioning a received signal that contains amplitude code data, wherein the coding of the individual data includes a defined coding clock pulse, and wherein the received signal includes the signal of an active sensor of a vehicle wheel, comprising the steps of: determining a first a second time in accordance with the time constant (tm), wherein the second time is set in dependence on the time of an edge determined at the first time; conditioning a fist part which has a first edge at the first time, conditioning a second signal part at the second time; and detecting another edge in the received signal at a third time set in accordance with the time constant, wherein the third time is set based on a edge which has been

'n

detected as a last edge as in claim 32; determining a first and a second time window within the series of time; wherein the second time window is set in dependence on the time of the edge determined at the first time; conditioning a first signal part the has a first edge in the first time window; conditioning a second signal part in the second time window; and detecting another edge in the received signal in a third window set in accordance with the time constant (tm), wherein the third time window is set based on an edge which has been detected as a last edge as recited in claim 33; and a device comprising: a first determining unit for determining from the received signal a time constant set in accordance with the coding clock pulse, wherein the first determining unit determines the time constant in accordance with the duration of the first pulse' and the time window setting unit for setting a first time window in accordance with the time constant and for setting time window in accordance with tie time constant and in dependence on the time of an edge detected in the first time window by the edge detection unit as recited in claim 50.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kishigami et al (U.S. Pat. 5,633,898) disclose a AFC apparatus.

Art Unit: 2637

Shirant et al (U.S. Pat. 6,148,025) disclose a system and method for compensating for baseline wander.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to KHAI TRAN whose telephone number is (571) 272-3019. The examiner can normally be reached on 7:00AM - 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JAY PATEL can be reached on (571) 272-2988. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
